

KONICA MINOLTA

Data Management Software CS-S10w Standard

Installation Guide

Software License Agreement

The terms of the license agreement of the CS-S10w software are provided in the Software License Agreement dialog box displayed on-screen during the installation process. This software can be installed only if you agree to all the terms of the agreement.

Safety Precautions

Before you use the CS-S10w software, we recommend that you thoroughly read this manual as well as the instruction manuals of your PC and the instrument.

Notes on Installation

- The CS-S10w application software is designed to be used with the Windows 7, Windows 8.1 or Windows 10 operating system. Note that neither operating system is included with this software.
- One of these operating systems must be installed on the PC before this software can be installed.
- When inserting the CD-ROM into the CD-ROM drive, note the correct orientation of the disc. Insert it gently.
- Keep the CD-ROM clean and free from scratches. If the recorded surface becomes dirty or the label surface is scratched, a read error may result.
- Avoid exposing the CD-ROM to rapid temperature changes and condensation. Avoid leaving it in locations where it may be exposed to high temperatures from direct sunlight or heaters.
- Do not drop the CD-ROM or subject it to strong impact.
- Keep the CD-ROM away from water, alcohol, paint thinners and other such substances.
- Remove the CD-ROM from the CD-ROM drive while the computer is turned on.

Formal designations of application software used in this manual

(Designation in this manual)

Windows, Windows 7

Windows, Windows 8.1

Windows, Windows 10

(Formal designation)

Microsoft® Windows® 7 Professional Operating System

Microsoft® Windows® 8.1 Pro Operating System

Microsoft® Windows® 10 Pro Operating System

Trademarks

- “Microsoft”, “Windows”, “Windows 7”, “Windows 8.1” and “Windows 10” are registered trademarks of Microsoft Corporation in the U.S.A. and other countries.
- Other company names and product names mentioned in this manual are the registered trademarks or trademarks of their respective companies.

Notes on Storage

- After using the CD-ROM, return it to its case and store in a safe place.
- Avoid leaving the CD-ROM in locations where it may be exposed to high temperatures from direct sunlight or heaters.
- The CD-ROM should not be kept in areas of high humidity.

Every effort has been made to ensure the accuracy of the content of this software. However, should you have any questions or comments, please contact the nearest KONICA MINOLTA authorized service facility.

Package Contents

- Installation CD-ROM of Standard (Qty: 1)

The Instruction Manual is also installed in PDF form with a shortcut in the start menu during the software installation. Versions of the Instruction Manual in other languages are also included on the installation CD-ROM.

Memory	128 MB (256 MB recommended)
Hard disk drive	60 MB of available hard disk space
Display	Display hardware capable of displaying 1024 x 768 pixels / 16-bit color or better
Optical disc drive	CD-ROM drive
USB port	Required for instrument
Browser	Internet Explorer Ver. 5.01 or later

Compatible Instruments

Instrument	CS-200
------------	--------

Language

Display language	English, Japanese (Select one during installation.)
------------------	---

1. Installing the software

When installing the software, you must log on to the computer as a user with Administrator privileges.

1.1 Installation procedure

Install the CS-S10w software.

If your OS is Windows 8.1 or Windows 10, a dialog which checks User Account Control is displayed during the process. When this dialog box is displayed, click “Continue” or “Yes”.

- 1.** Start Windows on your computer.
- 2.** Insert the CS-S10w CD-ROM into the CD-ROM drive.

[Windows 7]

- 3.** The install program will start automatically. If it does not start automatically, double-click the “setup.exe” icon.
→ Proceed to step 4.

[Windows 8.1 or Windows 10]

- 3.** In the right of the screen, the message “Tap to choose what happens with this removable drive” is displayed. Click this message, and then click “Run setup.exe”.
If the program does not run automatically, move the mouse pointer to the bottom left corner of the screen. Right-click in the window that is displayed, and then, on the menu that appears, click “Explorer”.
Right-click the DVD or CD drive, and then, on the menu that appears, click “Install or run program from your media”.
- 4.** The Select Language dialog box opens. Select the appropriate language and click “OK”.
The following procedure assumes that English is selected.
- 5.** Click “Next”.
- 6.** Read the software license agreement carefully. If you accept the terms of the agreement, select “I accept the terms in the license agreement”, and click “Next”.
- 7.** The set-up program asks you to choose the folder in which you want to install the software. To install the software in another location, click the “Change” button, select or type the path to the location and click “OK”.
- 8.** Click “Next” and then click “Install”.
The set-up program will begin copying the files.
- 9.** This completes the installation process. Click “Finish”.

1.2 Creating a shortcut

When CS-S10w has been installed, a shortcut to CS-S10w is registered in the Windows Start Menu (* for Windows 8.1, the shortcut is placed on the Start screen). To place a shortcut in another location such as the Desktop, create it with Windows Explorer or another program.

1.3 To uninstall

[Windows 7]

1. Click the “Start” button. Select “Settings” - “Control Panel” and double-click the “Add/Remove Programs” icon.
2. Select CS-S10w from the list of Change or Remove Programs and click the “Change/Remove” button.
3. A dialog box for changing, modifying or removing a program opens. Select “Remove” and then click “Next”.
4. When the file deletion confirmation dialog box opens, click “OK”. The uninstall program will start.
5. When the uninstall process is completed, click “Complete”.

[Windows 8.1 or Windows 10]

1. Move the mouse pointer to the bottom left corner of the screen, and then right-click in the window that is displayed. On the menu that appears, click “Programs and Features”.
2. In the “Programs and Features” list, select “CS-S10w”, and then click “Uninstall”.
3. A dialog box for confirming that you want to uninstall the application appears. Click “Yes”.
4. A dialog box for confirming that you want to update the software appears. Click “Yes”.

2. Connection

Connecting an instrument to your PC with the USB cable enables you to control the instrument with the CS-S10w software or to exchange data between the PC and instrument. When you connect the instrument to a PC for the first time, you need to install the USB driver.

2.1 Connecting the instrument to your PC/Installing the USB driver

Although the USB cable can normally be connected/disconnected even while the instrument and the PC are running, you must turn them off in the following procedure before connecting the cable.

1. Turn off both the instrument and the computer.
2. Connect the instrument and the computer via the USB cable as illustrated. Connect the computer end of the cable to the USB port of the computer.

Notes:

- Attach the connectors securely in the correct orientation.
 - Do not touch the terminals of the connector. Keep them clean and do not apply excessive force.
 - Use a cable of sufficient length. If the cable is too short, a connection failure or disconnection may result.
 - To disconnect the cable, grip the plug or connector securely. Do not pull the cable or bend it with excessive force.
3. Turn on the instrument and the computer.
 4. Start Windows on your computer.

[Windows 7]

5. A message saying “Installing device driver software” is displayed in the taskbar at the bottom right of the screen.
Wait until the driver is installed. (The driver installation process may take several minutes.)
6. The installation finishes automatically and a notification is displayed in the taskbar.
7. If you were not able to install the USB driver using the procedure above, install it from Device Manager.
From the Start menu, right-click “Computer” and select “Properties” to open Device Manager. Right-click “CHROMA METER” and select “Update Driver”. Select the folder where CS-S10w has been installed.
8. This completes the installation procedure.

[Windows 8.1 or Windows 10]

5. Move the mouse pointer to the bottom left corner of the screen, and then right-click in the window that is displayed.
6. On the menu that appears, click “Device Manager” to open Device Manager.
7. Right-click “CHROMA METER”, click “Update Driver Software”, and then click “Browse my computer for driver software”. For the destination to search, specify the name of the folder in which the software (CS-S10w) has been installed, and then click “Next”.
8. This completes the installation procedure.
