Konica Minolta Healthcare is proud to announce a PM&R ultrasound workshop designed to teach the practitioner the use of musculoskeletal ultrasound for the shoulder region.

**Intro to MSK Shoulder Ultrasound**
**Saturday, September 23rd**
**9 am to 1:30 pm**
TROY Boston Apartments
55 Traveler Street
Boston, MA, 02118

**Speaker:** Paul Hezel, MD
Dr. Hezel specializes in the non-operative management of all sports and musculoskeletal injuries. He uses an exercise and rehabilitation-based approach to treat people of all ages who sustain injuries across a wide range of activities, from leisurely fitness training to high-level organized athletics. Dr. Hezel is trained in musculoskeletal ultrasound and peripheral joint and soft-tissue injections.

Register at: KM-university.com
Attendance: $79, Across the street parking for $2.50 per hour

**Workshop Overview**
The workshop will consist of lecture and live scanning with an emphasis on the shoulder region
