

On the Release of Integrated Report 2018

Since fiscal 2015, Konica Minolta has released annual reports that provide a comprehensive look at the Company's activities and philosophies. The fourth report is now available. These reports have been referred to as "integrated reports" since last year. We consider this integrated report to be an important tool that represents a systematic organization of both financial and non-financial information, and is intended to be a communication tool to better familiarize stakeholders, including shareholders and investors, with Konica Minolta. The 2017 integrated report was externally well-received, winning recognition and awards that included the Grand Prix Runner Up in the Nikkei Annual Report Awards conducted by Nikkei Inc.

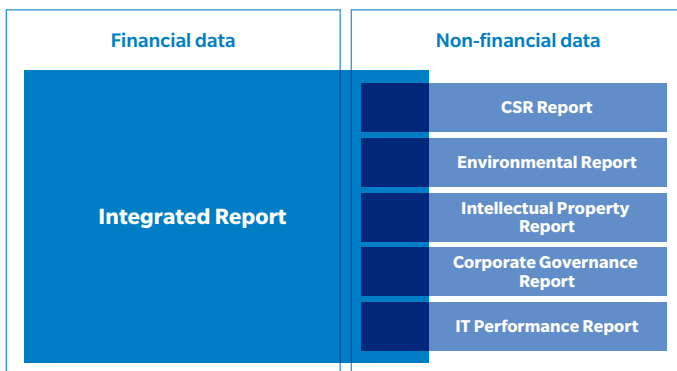

Integrated Report 2018 lays out the Konica Minolta Group's strengths and process to creating value with a focus on SHINKA 2019, the new Medium Term Business Plan formulated in 2017, while explaining the Group's medium- to long-term business strategy and pathway to value creation.

The report was a cross-organizational collaboration accomplished by taking cues from sources such as the International Integrated Reporting Framework published by the International Integrated Reporting Council (IIRC) and the Guidance for Integrated Corporate Disclosure and Company-Investor Dialogues for Collaborative Value Creation formulated by the Ministry of Economy, Trade and Industry.

I can attest to the soundness and accuracy of the report creation process and its content. Konica Minolta will continue using the integrated report as a tool for engaging with all of its stakeholders, including its shareholders and investors, as it works to sustainably improve the corporate value it provides.
