The corporate governance of Konica Minolta, Inc. (the “Company”) is described below.

I. Basic Views on Corporate Governance, Capital Structure, Corporate Profile and Other Basic Information

1. Basic Views

The “Basic Policy on Corporate Governance” that was formulated in September 2015 defines the basic views regarding corporate governance.

<Basic Concept for Corporate Governance>

The Company believes that corporate governance should contribute to sustainable corporate growth and increased corporate value over the medium to long term by encouraging appropriate risk-taking as part of management execution. On the other hand, the Company has established a corporate governance system from the standpoint of the supervisory side in the belief that setting up and managing a highly effective supervisory function is also necessary. As part of its institutional design in accordance with the Companies Act, in 2003 the Company selected the “company with committees” system (now, a “company with three committees” system) and established a system that eliminated dependency on personal characteristics, thereby pursuing governance in a style specific to the Company.

The Company’s basic views with regard to its governance system are as follows.

- Ensuring business supervisory functions by separating the supervisory and execution functions in order to increase the corporate value;
- Election of an Independent Outside Director who can provide supervision from a shareholder perspective; and
- Improvement of the transparency, integrity and efficiency of management through the above-mentioned points.

Specifically, the Board of Directors and the three committees are composed as follows.

1) Board of Directors

- One-third or more of Directors are Independent Outside Directors, and Directors who do not concurrently serve as Executive Officers constitute the majority of the total number of Directors.
- The Chairman of the Board is selected from among Directors not concurrently serving as Executive Officers.

2) Nominating, Audit and Compensation committees

- Each committee is composed of around five members, and a majority of its members is Outside Directors.
- The Chairperson of each committee is selected from among the Outside Directors.
- The President & CEO is not selected as a member of the Nominating, Audit or Compensation committee.

[The reason for non-compliance with Japan's Corporate Governance Code] Updated

The Company complies with every principle of Japan's Corporate Governance Code (revised on June 1, 2018) based on the above Basic Views, with the following exception.

Reason for non-compliance with 【Principle 4-11 Preconditions for Board of Directors and *Kansayaku* Board Effectiveness】

Regarding <diversity, including gender and international aspects, and appropriate size>

The Company has paid due heed to “the board should be well balanced in knowledge, experience and skills in order to fulfill its roles and responsibilities,” and “it should be constituted in a manner to achieve both diversity and appropriate size,” as stipulated in the principle. In addition to naturally taking into account gender and internationality for consideration of diversity, in the Company's decision on the nomination of candidates to make up a Board of Directors of an appropriate size, the highest priority is given to matching for the following two requirements: (i) overall balance of knowledge, experience and capabilities; and (ii) a person who can provide appropriate supervision for the Company's medium-term management issues.

[Disclosure Based on the Principles of the Japan's Corporate Governance Code] Updated

【Principle 1-4 Cross-shareholdings】

The Company has prepared and disclosed a policy for cross-shareholdings (reduction policy and voting standards).

(1) Views on cross-shareholdings

In principle, the Company will not hold listed stocks as cross-shareholdings except in cases where it recognizes there is significance or justification for ownership. Significance or justification for ownership will be judged from the results of yearly examinations conducted on each stock based on whether there are

expectations of collaboration with the issuers and business synergies, as well as on whether the benefit and risk of holding said stock are appropriate to its capital cost. Consequently, stock where there is little significance or justification for ownership will be sold while taking into account the proper stock price, market conditions and other factors.

As of March 31, 2021, the results of examinations into the Company's cross-shareholdings are as follows. Furthermore, each year, the Company verifies the economic justification and checks the qualitative significance of each individual stock through the Management Consultation Committee and reports its findings to the Board of Directors.

In terms of economic justification, each individual stock was examined as to whether revenues from dividends and related-party transactions exceeded the capital cost to the Company and it was confirmed that the most of stocks subject to examination produced revenues that exceeded capital cost of the Company.

In addition to the above, the stocks were checked regarding their qualitative significance which confirmed the purpose of holding stocks that are to continue being held by the Company, such as the maintenance or strengthening of business relations with investees or expectations of collaboration and business synergies.

This also confirmed stocks that the Company should consider selling due to the dilution of the significance or justification for ownership, or other factors. Additionally, nine stocks that were recognized as having a diluted significance for ownership (excluding shares deemed held) were sold in fiscal 2020, and the sales amount was 8,615 million yen.

(2) Standard for voting cross-shareholdings

- The execution of voting rights is an important means of communicating with investees and the Company exercises its voting rights related to all cross-shareholdings. In exercising these rights, the Company checks each proposal and rather than making a uniform judgement on whether to approve or reject it based on formulaic or short-term standards, it makes a judgement from the perspective of whether said proposal will lead to continuous growth and a medium- to long-term increase in corporate value for the Company and the investee, based on sufficient consideration of said investee's management policy, strategies, and the like. Judgement on whether to approve or disapprove a proposal includes careful consideration of the following items in particular, as they may have a significant impact on shareholder return.

- 1) Transfer of important assets
- 2) Merger or share transfers which cause or cease wholly owned subsidiary
- 3) Third-party allotments through favorable issuances
- 4) Introduction of measures to defend against hostile takeovers

【Principle 1-7 Related Party Transactions】

If the Company, by any chance, engages in transactions with conflicting interests as prescribed in the Companies Act with Directors and Executive Officers ("executives"), the Board of Director rules require a

resolution of approval by the Board of Directors. In addition, to identify conflict-of-interest transactions by executives, every year on a regular basis there are confirmations with these executives to determine if there were any transactions (except compensation) between the Konica Minolta Group (the “Group”) and an executive or close relative (relatives within the second degree). Furthermore, with regard to transactions between the Company and its related parties, including major shareholders, subsidiaries and related companies, the Company has created internal approval procedures based on its authority rules equivalent to those governing transactions with third parties to ensure such transactions do not harm the interests of the Company or the common interests of its shareholders.

【Principle 2-6 Roles as Asset Owners of Corporate Pension Funds】

The Company has established a Pension Asset Management Committee comprising the Executive Officer responsible for finance, the General Manager of the Human Resources Department, the General Manager of the Accounting Department, the General Manager of Finance Department, representatives from labor unions, and others. The committee is tasked with the appropriate management of the corporate pension fund.

Also, in order to perform the expected roles as Asset Owners by increasing the expertise used in management of the fund, dedicated fund management personnel who possess appropriate credentials and business experience in the Accounting and Finance departments have been appointed. Furthermore, the Company has declared acceptance of Japan’s Stewardship Code for Corporate Pension in March 2021. In addition, for stocks of listed companies in Japan, management is entrusted to asset management institutions that profess to follow Japan’s Stewardship Code, and stewardship activities are monitored.

Conflicts of interest which could arise between corporate pension fund beneficiaries and the Company are managed appropriately as follows: 1) when selecting asset management institutions, the Company carries out a comprehensive assessment that covers not only quantitative aspects such as investment performance, but also qualitative aspects such as an institution’s investment policy, management framework, and compliance, 2) asset management institutions are required to formulate and disclose a policy regarding the management of conflict of interests, and 3) decisions regarding the exercise of voting rights are left to the sole discretion of the entrusted asset management institution to remove any possibility of interference by the Company.

【Principle 3-1 Enhancement of Full Disclosure】

The Company discloses information properly in accordance with laws and regulations. In addition, to ensure that decisions are made with transparency and fairness, the following information is disclosed from the standpoint of maintaining an effective corporate governance system. The Company discloses information proactively. Specifically, the Company uses its website, integrated report, CSR report, corporate governance report, business report and other reports, and reference materials at general shareholder meeting to disclose information. In addition, there are proactive measures to supply information by using Management Policy Briefings, Investor Briefings for Individual Investors and other activities.

(1) Management Philosophy and Business Plan

The Company's management philosophy and business plan are disclosed in the integrated report and on the Company's website. Furthermore, explanation is also actively provided through Management Policy Briefings and Investor Briefings for Individual Investors and other activities. (3) Policy and procedure for determining compensation for Executive Officers and Directors

Please refer to the Supplementary Explanation of "Incentives" and the Policy on Determining Compensation Amounts and Calculation Methods of "Compensation for Directors and Executive Officers" in section II. 1 of this report.

(4) Policy and procedure for selections or dismissals of Executive Officers and nominations of Director Candidates

(a) Policy and procedure for selections or dismissals of Executive Officers

The Board of Directors uses a fair, timely and appropriate method to select people who have the capabilities to serve as Executive Officers. These individuals must be able to create new value for the Group and earn the support of internal and external stakeholders. Standards for making these judgments about capabilities are defined in "Standards for the Selection of Executive Officers". These standards include qualification standards. Individuals must have the ability and experience for the internal and external management of the Group's business operations. Qualification standards also take into consideration knowledge about specialized fields and technologies, an individual's age when the time for renewing the appointment comes, and other items. In addition, the Board of Directors selects individuals with a strong commitment to ethics, the ability to put customers first, the ability to drive innovation, strong motivation to achieve goals, and other characteristics.

To select new Executive Officers, candidates who have completed senior executive candidate training must do the first stage of the selection process, which involves submitting documents and completing an interview. Next, an assessment is performed in order to reach a highly objective and appropriate decision. This process

includes input from both an external perspective and from the perspective of people at the Group who frequently interact with these candidates as part of their jobs. An evaluation conference, which consists of the President & CEO and the Executive Officer responsible for personnel, is held to examine the results of this process. This results in the selection of candidates to become Executive Officers.

To determine the new team of Executive Officers, the President & CEO selects from the list of Executive Officer candidates the individuals who are believed to be well suited to serve as Executive Officers. Next, a proposal for the selection of Executive Officers for the new fiscal year is prepared and submitted to the Board of Directors with a list of the duties for each Executive Officer. Prior to the submission of this proposal to the Board of Directors, the Nominating Committee performs oversight of the whole process, including a confirmation that a suitable process was used. Oversight includes receiving the proposal for the new Executive Officer team (including the proposed new Executive Officer selections from the President & CEO) and a report about the proposed duties of each Executive Officer.

Prior to the submission of this proposal to the Board of Directors, the Nominating Committee performs oversight of the whole process, including a confirmation that a suitable process was used. Oversight includes receiving the proposal for the new Executive Officer team (including the proposed new Executive Officer selections from the President & CEO) and a report about the proposed duties of each Executive Officer.

The Nominating Committee considers observing the character of Executive Officer candidates is an important matter and utilizes opportunities such as attending meetings of the Board of Directors and reporting to informal gatherings of Directors. After receiving the proposal for the selection of Executive Officers mentioned above from the President & CEO, the Nominating Committee discusses the content of the proposal, creates a summary of its conclusions regarding matters such as the appropriateness of candidates and training issues, and provides these as feedback to the President & CEO.

Also, the Board of Directors takes the “Standards for the Selection of Executive Officers” into full consideration when deciding whether or not to dismiss an Executive Officer.

(b) Policy and procedure for nomination of Director Candidates

The Nominating Committee starts each year by performing reviews of the composition of the Board of Directors and committees and of the standards for the selection of directors and committee members. By performing examinations from the standpoints of balance of career and skill, diversity and other factors, this committee aims to upgrade its selections of Director candidates. The following process is used to make selections.

<Board of Directors>

1) The Nominating Committee examines the objectives of the composition of the board and then confirms a proposal for the total number of Directors, the number of Outside Directors, and the number of Inside Directors who do and do not concurrently serve as Executive Officers.

2) Confirmation of Directors who will resign due to standards for the number of years as a Director or age and expected number of new Outside Director and new Inside Director candidates.

<Outside Directors>

3) To select Outside Director candidates, after the Nominating Committee confirms the selection process, the members of this committee determine the careers and skills that will be required of new Outside Directors in order to enable them to be a good match with Outside Directors to be reelected. The purpose is to receive beneficial oversight and advice concerning management issues at the Company.

4) The Nominating Committee chairperson asks for a broad range of recommendations for candidates, based on information from Nominating Committee members, other Outside Directors and the President & CEO. To provide reference information, the Board of Directors Office distributes to Nominating Committee members etc. a candidate database, centered on “chairmen” of excellent companies, that includes information about independence, age, concurrent positions and other characteristics of candidates.

5) The Nominating Committee takes into consideration the items listed below in order to narrow down the number of candidates, from the recommended individuals obtained through the preceding process in order to determine an order of priority.

- Selection standards for Directors
- Standard for independence of Outside Directors
- Balance of career and skill required for Outside Directors and diversity

6) Using the order of priority for candidates, the Nominating Committee chairperson and Chairman of the Board of Directors visit and approach the candidates to serve as an Outside Director.

<Inside Directors>

7) Candidates for Inside Director are jointly proposed with the Nominating Committee following discussions between the Chairman of the Board of Directors and the President & CEO concerning proposed candidates for Non-executive Directors and Directors who concurrently serve as Executive Officers based on the President & CEO sharing his plan for the executive system for the next fiscal year with the Chairman of the Board of Directors, with emphasis placed on the following points.

- Selection standards for Directors
- Roles of Directors who do and do not concurrently serve as Executive Officers
- Required skills, experience and other characteristics of Directors who do and do not concurrently serve as Executive Officers

8) The Nominating Committee uses the draft proposals to examine the candidates.

[Director election standards]

The Nominating Committee has selected candidates who satisfy the following standards as being suitable Directors for achieving good corporate governance i.e. ensuring the transparency, soundness and efficiency of the Company’s operations.

- 1) Good physical and mental health
- 2) A person that is well liked, dignified, and ethical
- 3) Completely law-abiding
- 4) In addition to having objective decision-making abilities for management, the person must have good foresight and insight

- 5) Someone with no possible conflict of interest or outside business relations that may affect management decisions in the Company's main business areas, and who has organizational management experience in the business, academic, or governmental sectors. Otherwise, someone with specialized knowledge in technology, accounting, law, or other fields
- 6) For Outside Directors, a candidate with a history of performance and insight in that person's field, someone with sufficient time to fulfill the duties of a Director, and who has the ability to execute required duties as a member of the three relevant committees
- 7) The Nominating Committee has separately set forth points for consideration in the re-election of Directors and requirements concerning the number of terms of office, age and other factors.
Especially, in principle, existing terms of office for Outside Directors are up to four years.
- 8) In addition, the candidate must have the abilities necessary for a Director running and building a public corporation that is transparent, sound, and efficient.

[Independence standards for Outside Directors]

Concerning Independence Standards for Outside Directors, please refer to the "Matters relating to Independent Directors" of "Independent Directors" in section II. 1 of this report.

[Balance of career and skill required for Outside Director candidates and diversity]

- 1) For the diversity of Directors, the Nominating Committee Rules for selection standards for Directors state that candidates should "have experience operating an organization in the industrial, government or academic sector or have specialized skills involving technologies, accounting, law or other fields" and "have accomplishments and knowledge in their respective fields for Outside Director candidates."
- 2) Candidates should have the character, skill and experience needed for strengthening and upgrading management in order to enable the Board of Directors to determine the Company's strategic direction.
- 3) A career and skill matrix for Outside Directors to be reelected and new Outside Director candidates that includes the industries, major management experience, fields of expertise and other characteristics is prepared in order to take into consideration the diversity of careers and skills. The purpose is to receive beneficial oversight and advice concerning the Company's management issues at the Board of Directors.
- 4) Outside Director candidates are not excluded from consideration on the grounds of their gender, nationality, country of birth, cultural background, race, or ethnicity.

[Stance concerning roles of Inside Directors and selection of Candidates]

- 1) The Chairman of the Board of Directors calls meetings of the board and chairs the meetings. In addition, the Chairman is responsible for overseeing improvements in the effectiveness of corporate governance. The Chairman ensures that agenda items are handled in a manner that facilitates constructive discussions in an open and unrestricted manner. The Chairman also asks questions and takes other actions from the standpoint of providing oversight and ideas and suggestions. Furthermore, based on assessments of the effectiveness of

the board, the Chairman establishes policies for the board's operations and explains these policies at the board meeting following ordinary general meeting of shareholders.

The Company's previous President & CEO has been selected as the Chairman in order to have a Chairman who has a thorough knowledge of the Company's management and can provide highly effective oversight of management. The Company's Basic Policy on Corporate Governance and Corporate Organization Basic Regulations require that the Chairman shall be a Director who does not concurrently serve as Executive Officer, whether the individual is an Outside or Inside Director.

2) An Inside Director who is not concurrently an Executive Officer and who has the ability to ensure the quality of audits is selected as a full-time Audit Committee Member. The Inside Director who serves as a full-time Audit Committee Member should have extensive management experience as an Executive Officer of the Company in order to improve the effectiveness of the Audit Committee. The qualifications required in particular are experience in accounting and finance or internal audit, business management and main business management.

3) Inside Directors who are concurrently Executive Officers, other than the President & CEO, are selected based on their experience, capabilities and character so that these individuals can demonstrate accountability in their execution of business and contribute to energetic and meaningful discussions of the Board of Directors. Requirements for these Inside Directors include responsibility for overseeing strategic planning, accounting and finance, technology, main business and other major elements of the Company's operations.

(5) Reasons for selections and nominations of Executive Officers and Directors responsible for major duties

(a) Reasons for selections of individual Executive Officers overseeing the major duties Updated

The reasons for selecting Executive Officers in charge of the Company's major responsibilities are the followings.

Mr. Shoei Yamana (President & CEO, Representative Executive Officer)

Due to such experience and accomplishment, he can contribute to the transformation of our company into a high valued-added business with DX.

(b) Reasons for nominations of Director candidates Updated

The reasons for selecting Director candidates by the Nominating Committee are the following. See “II 1 Information concerning Outside Directors” for the reasons for selecting Outside Director candidates.

[Reasons for selecting the candidate for Inside Director] (The 117th Ordinary General Meeting of Shareholders)

Mr. Masatoshi Matsuzaki (Chairman of the Board of the Company)

Mr. Masatoshi Matsuzaki has extensive experience and expertise. At the Company and its Group companies, under the company split and holding company structure, Mr. Matsuzaki has been in charge of research and product strategies for the Business Technologies Business, served as president of a subsidiary handling basic research and development of elemental technologies and served as Executive Officer in charge of technology strategy at the Company. In addition, Mr. Matsuzaki led the management reforms of the Group, serving as President & CEO from April 2009 through March 2014. Since April 2014, as Chairman of the Board of Directors, he has worked to further enhance corporate governance while managing the Board of Directors.

It has been confirmed by the annual evaluation of the effectiveness of the Board of Directors that Mr. Matsuzaki properly chooses matters of discussion for the meetings of the Board of Directors and draws on capabilities of Outside Directors as a specialized supervisor with a very high level of familiarity of the Company’s management, and also enhances the quality of supervision with questions and opinions that complement his activities described above. He also leads the Company’s corporate governance reform aiming at realizing sustainable growth and enhancing corporate value. Therefore, the Company requested that shareholders elect for him to continue. Mr. Matsuzaki has been in charge of supervision of the management, securing sufficient time to fulfill his duties as full-time Chairman of the Board of Directors.

Mr. Shoei Yamana (President & CEO, Representative Executive Officer)

Mr. Shoei Yamana has extensive management experience and expertise. At the Company and its Group companies, Mr. Yamana has been an Executive Officer in charge of management strategy and IR, served as General Manager of the Sales Division of Business Technologies Business and been in charge of operations, among other positions. Mr. Yamana has led the management of the Group, serving as President & CEO since April 2014, and through promoting “TRANSFORM 2016” and “SHINKA 2019,” the Company’s medium-term business plans, while achieving business growth by strengthening the intangible assets of the customer base, human resources and technology. Mr. Yamana has also focused on “Sustainable Development Goals (SDGs) management,” “environment and quality management,” “health management,” etc.

As the CEO of the Group, Mr. Yamana is formulating the medium-term business strategy “DX2022” aimed at sustainable growth through business portfolio transformation and Digital Transformation (DX) and leading the entire Group to promote management strategies and various measures in this challenging business environment. In addition to demonstrating accountability on the Board of Directors as Representative Executive Officer, Mr. Yamana can continue contributing to the enhancement of the function of making important decisions from a management standpoint. Therefore, the Company requested that shareholders elect for him to continue.

Mr. Toyotsugu Itoh

The Company believes that it is important for the Audit Committee to include a full-time Inside Director who has extensive business management experience and expertise involving the collection of information. Mr. Toyotsugu Itoh will attend management meetings of Executive Officers as a Member of the Audit Committee. He will grasp and confirm validity of the determination process about operations, which are commissioned to the Executive Officers by the Board of Directors, as well as the operational status of the internal control system. By providing the Audit Committee with feedback on such information, he will work to optimize the quality and quantity of information for the audit by the Committee.

Mr. Itoh has extensive experience and considerable expertise related to business management and internal control from serving in the Company’s production technologies, business management of subsidiaries, and serving as Senior Executive Officer in reforms of the management quality etc. Since fiscal 2018, Mr. Itoh has engaged in supervising management as an Inside Director at the Company not concurrently serving as Executive Officer and properly fulfilled his duties at the Audit and Compensation Committees as an Inside Member.

Therefore, the Company believes that Mr. Itoh can enhance corporate value by securing the effective operation of its corporate governance, and requested that shareholders elect for him to continue.

Mr. Hiroyuki Suzuki

The Company believes that it is important for the Audit Committee to include a full-time Inside Director who has extensive business management experience and expertise involving the collection of information in order to enhance the effectiveness of the Audit Committee. Mr. Hiroyuki Suzuki will attend management meetings of Executive Officers as a Member of the Audit Committee. He will work to optimize the quality and quantity of information for the audit by the Committee as he will grasp and confirm validity of the determination

process about operations, which are commissioned to the Executive Officers by the Board of Directors, as well as the operational status of the internal control system and will provide the Audit Committee with feedback on such information.

After engaging in the secretariat duties to support the Audit Committee at the Audit Committee Office of the Company, Mr. Suzuki has also overseen internal audit as the General Manager of the Company's Corporate Audit Division. Mr. Suzuki has extensive experience and considerable expertise related to internal control. Since 2019, Mr. Suzuki has engaged in supervising management as an Inside Director at the Company not concurrently serving as Executive Officer and properly fulfilled his duties at the Audit and Compensation Committees as an Inside Member.

Therefore, the Company believes that Mr. Suzuki can enhance corporate value by securing the effective operation of its corporate governance, and requested that shareholders elect for him to continue.

Mr. Toshimitsu Taiko (Senior Executive Vice President & Executive Officer)

As a Senior Executive Vice President & Executive Officer of the Company responsible for Corporate Planning, IR, etc., and lead officer responsible for supervision of the Company's mainstay Business Technologies Business, Mr. Toshimitsu Taiko has worked to enhance corporate value of the Group by promoting the medium-term business strategy "DX2022." The Company believes Mr. Taiko will demonstrate accountability to the Board of Directors and participate in important management decisions. Therefore, the Company requested that shareholders elect for him to continue.

Mr. Seiji Hatano (Senior Executive Officer)

As a Senior Executive Officer of the Company responsible for Business Management, Finance and Accounting, and Risk Management, Mr. Seiji Hatano has worked to enhance corporate value of the Group by promoting the medium-term business strategy "DX2022." The Company believes Mr. Hatano will demonstrate accountability to the Board of Directors and participate in important management decisions. Therefore, the Company requested that shareholders elect for him to continue.

[Supplementary rule 4-1-1 Scope of Matters Delegated to the Management (Roles and Responsibilities of Board of Directors)]

Since the Company is a company with three committees, the Board of Directors delegates to Executive Officers as much authority as allowed by laws and regulations for making operational decisions. This contributes to the speed and flexibility of managing business operations. The Board of Directors makes decisions solely about items, such as fundamental management policies, that can be determined only by the Board of Directors, according to laws and regulations. In addition, the Board of Directors makes decisions about investments larger than a certain amount and such other items that will have a significant impact on the Konica Minolta Group.

【Principle 4-9 Independence Standards and Qualifications for Independent Outside Director】

The standards for determining independence are explained in II. 1. [Independent Directors] Matters relating to Independent Directors. For information about the required qualifications, see I. 1. [Disclosure Based on the

Principles of the Japan's Corporate Governance Code] [Balance of career and skill required for Outside Director candidates and diversity].

[Supplementary rule 4-11-1 Total Balance, Diversity and Size of the Board of Directors]

The Board of Directors is composed of a number of Directors within the scope provided in the Articles of Incorporation, taking into account the management issues the Board of Directors is required to address. The approach regarding this is as follows.

- (1) To ensure management transparency and supervisory objectivity, oversight of management, one-third or more of Directors are Independent Outside Directors, and Directors who do not concurrently serve as Executive Officers constitute the majority of the total number of Directors.
- (2) To enhance the management supervision function, liaise with the Independent Outside Directors and strengthen communication and cooperation with Executive Officers, more than one Inside Directors not concurrently serving as Executive Officers will be appointed.
- (3) To further enhance deliberations on important decisions from a management standpoint, in addition to the President & CEO, several Executive Officers in charge of principal duties will be appointed as Directors.
- (4) The Nominating, Audit and Compensation committees are all chaired by Outside Directors to ensure transparency and objectivity. In addition, to ensure that each committee adequately fulfills its respective roles, each committee is composed of around five members, and a majority of its members is Independent Outside Directors.
- (5) Concerning the size of the Board of Directors, the Company considers that ten to 12 Directors to be appropriate from the standpoint of achieving the proper composition of the board with respect to Inside Directors who do not concurrently serve as Executive Officers, Inside Directors who concurrently serve as Executive Officers and Outside Directors.
- (6) For information about the diversity of the Board of Directors, see I. 1. [3-1 Enhancement of Full Disclosure] [Balance of career and skill required for Outside Director candidates and diversity]. Especially for the information about the approach to the diversity, including gender and international aspects, and appropriate size, see [The reason for non-compliance with Japan's Corporate Governance Code].

[Supplementary rule 4-11-2 The other Jobs and Duties of Directors] Updated

For the selection standards for Outside Directors, individuals must “be able to spend sufficient time to perform their duties” and candidates are selected after thoroughly examining their other jobs and duties. The other jobs and duties of the Directors who were elected at the 117th Ordinary General Meeting of Shareholders in June 2021 are as follows;

Furthermore, the Company requires all Directors to have an attendance rate of at least 80%, and in order to realize this, as a general rule Directors should aim to hold concurrent positions (positions as Officers as stipulated in the Companies Act) at no more than three companies other than the Company.

[Supplementary rule 4-11-3 Evaluation of Effectiveness of the Board of Directors] Updated

In 2003, the Company became a company with committees (now a company with three committees). To determine if the corporate governance system is functioning as intended, the Company started performing self-assessments in 2004 concerning the Board of Directors' effectiveness.

Self-assessments were conducted on the effectiveness of the Board of Directors and the three committees, looking back over the activities of the past year for the purpose of confirming whether or not the construction and operation of the Company's corporate governance system is contributing to the realization of sustainable growth and enhancement of medium- to long-term corporate value that the system is designed to facilitate. The results of these self-assessments are used to identify items that the Board of Directors should work on in the following fiscal year in order to further improve effectiveness.

In fiscal 2016, the Company outsourced questionnaires and interviews to an external organization to enhance objectivity by adding standpoints of third parties, and to clarify issues not noticed in the existing “self-evaluation.”

In fiscal 2020, assessment of effectiveness was carried out giving consideration to the circumstances that (i) time was required for the fruition of the two transformations (transformation of the Office Business into Digital Workplace Business, and the development of core business to come after the Office Business; hereinafter the “Transformation”), and (ii) the Company is in a situation where the market has been making a harsh evaluation on the Company’s corporate value since the announcement of downward revisions to the forecasts for the full-year earnings results in July 2019.

Specifically, to tackle with the above circumstances of (i) and (ii), questions intended to clarify the actual issues concerning corporate governance and discover methods for improving issues were prepared and opinions were solicited.

(1) Survey schedule

The fiscal 2020 evaluation of effectiveness was as follows.

- March to April 2021: Distribution and return of self-evaluation questionnaires
- May 2021: Compiling of questionnaire responses and evaluation results
Exchanging of opinions based on details after processing (informal gatherings of Directors)
- June 2021: Explanation of Board of Directors Operations Policy for Fiscal 2021 by the Chairman of the Board, Q&A session and opinion exchange (Board of Directors meeting immediately after the ordinary general meeting of shareholders)

(2) Survey target

Survey was conducted for all Directors (Total 12 Directors).

(3) Survey objective

The objective of the survey is to consider the results of the survey and identify items that the Board of Directors should work on in the following fiscal year in order to further improve effectiveness.

(4) Questions

The following questions were set for each of the aforementioned (i) and (ii).

- (a) What are the items of corporate governance that are affecting (or seem to be affecting) the Company’s actual situation ((i) or (ii))?
- (b) What is the reason for identifying the item mentioned in (a)? On what grounds is this view based?
- (c) What specific measures can be taken to improve the situation or resolve the issue?

The question (a) is presented in a multiple choice format where the following categories can be selected. The questions (b) and (c) allowed for open response.

- Composition and term of office
- Quality of operational procedures and discussions
- Appointment of Executive Officers and environment for risk-taking

- The root of the Company's corporate governance system
- Information disclosure and cooperation with stakeholders

(5) Results of Effectiveness Assessment

The results from compiling and analyzing the responses, assessments, opinions, etc. for the questions (a) through (c) mentioned in (4) above are as follows.

Circumstance (i)

- (a) It is necessary to encourage Executive Officers to produce results through the personnel appointments of Executive Officers and their system of remuneration. To do so, the oversight regarding the education and training of managerial personnel will become increasingly important.
- (b) Discussions on basic policies of management for the realization of the Transformation are insufficient. It is necessary to enhance deliberations when the Transformation become a theme for deliberation.
- (c) The confirmation performed by the Board of Directors for "Internal Control Systems (management systems for achieving corporate goals)" with regard to the execution capability to realize the Transformation was not thorough.
- (d) There is room for reconsidering the terms of office for Outside Directors. It might be necessary to have Outside Directors who are familiar with businesses subject to business portfolio transformation.
- (e) It is felt that Outside Directors have more to offer regarding assistance and advice for producing outcomes.

Circumstance (ii)

- (a) It is necessary to set agenda items for the Board of Directors meeting with a greater awareness on share price.
- (b) There need to be improvements on the approach for the oversight performed as the Board of Directors regarding the content and timing of information disclosure.
- (c) More consideration is required to raise the interconnection between share price or corporate value and the compensation system for Executive Officers.
- (d) Based on the acknowledgement that multiple instances of not achieving the announced forecasts is the underlying reason for the market's continual harsh evaluation on the Company's corporate value, it is necessary to carry out measures to remedy the situation.

(6) Outline of Board of Directors Management Policies for Fiscal 2021

Based on (5) above and the details of the exchange of opinions at informal gatherings of Directors, the Chairman of the Board established a Board of Directors Operations Policy for Fiscal 2021.

At the Board of Directors meeting held immediately after the ordinary general meeting of shareholders, these policies were approved after an explanation of the contents of the policies was given and Q&A session and an exchange of opinions were held.

- (a) Encourage Executive Officers to produce results through Executive Officer appointments and remuneration system.

- (b) Improve quality of discussions and deliberations by the Board of Directors
- (c) Continue to check on items regarding the executive team's execution capability.
- (d) Carry out measures to facilitate greater assistance and advice from Outside Directors.
- (e) Continue improvement to achieve greater effectiveness.

[Supplementary rule 4-14-2 Training of Directors and Auditors] **Updated**

In accordance with the Director Election Standards, the Nominating Committee selects candidates for election as Director who have the qualities needed to be a Director. The Company confirms whether new Directors require training judging from each individual's knowledge, experience and other characteristics. If training is needed, the Company provides suitable opportunities to receive this training.

- (1) For new Independent Outside Directors, the Company provides information about the group's structure, business activities and finances as well as information about the medium-term business plan and its progress and other subjects. These new Directors also receive basic information about the Company's businesses and corporate-level functions.
- (2) For Independent Outside Directors, the Company arranges visits to the development, manufacturing, sales, service and other operations of every business unit. The Executive Officer of each business unit provides the Directors with the latest information about that business.

The Board of Directors' activities in fiscal 2020 are provided below. Furthermore, all the activities were performed using teleconferencing systems.

- (a) Inspection tours in Japan (factories and development base)

Two tours with the cumulative participation of eight Outside Directors

- (b) Internal announcement event

Internal announcement events (Value Creation Forum) in four business areas with the cumulative participation of 14 Outside Directors.

Internal announcement events (International Convention on Business Process Innovations) with the participation of two Outside Directors.

Internal announcement events (Bottom-up innovation activities presentation) with the participation of five Outside Directors.

- (3) Inside Directors are provided with opportunities to attend governance training held by external institutions, and Outside and Inside Directors are notified of information on various seminars provided as opportunities to participate in, as necessary.

【Principle 5-1 Policy for Constructive Dialogue with Shareholders】 **Updated**

The Company encourages constructive dialogues with shareholders and other investors with the goal of using these dialogues to contribute to sustained growth and the medium and long-term growth of corporate value.

The Company will conduct extensive investor relations activities. Based on this commitment, the following actions are taken.

(1) Designation of a senior management in charge of shareholder dialogues

Activities for a constructive dialogue with shareholders and other investors are centered on the President & CEO. The Executive Officer for investor relations and the department responsible for investor relations assist the President & CEO.

(2) Measures for seamless cooperation among departments

The department responsible for investor relations plays the primary role in encouraging dialogues with shareholders and other investors. The business management, accounting, finance, legal affairs and sustainability operation departments and all business units work together to support this division. In addition, the Investor Relations Office works seamlessly with the Management Consultation Committee and other major councils as well as the Corporate Information Disclosure Committee for the purpose of ensuring that dialogues are timely and appropriate.

(3) Measures used for dialogues other than individual meetings

The Company positions general shareholder meeting as an important opportunity for a dialogue with shareholders. The goal is to operate these meetings in a manner that can earn the trust of shareholders. This includes the disclosure of information about business operations so that information is supplied in a sufficient volume and in a format that is easy to understand. In addition, there are quarterly Financial Results Briefing Sessions, Management Policy Briefings from the President & CEO, Investor Briefings for Individual Investors, Business Briefings from Executive Officers responsible for each business, and IR days held as necessary for the Executive Officers responsible for each business to give presentations on multiple relevant themes and businesses. All these activities are aimed at maintaining strong lines of communication with shareholders and other investors.

(4) Reporting system for shareholders' opinions and concerns

The President & CEO submits reports on information including opinions and concerns about the Company that were received through dialogues with shareholders and other investors to the Board of Directors, management council meetings and other major councils, as necessary.

(5) Management of insider information

The Company has a Corporate Information Disclosure Committee for the purpose of ensuring that the disclosure of important corporate information is timely, appropriate and fair. This Committee establishes a procedure for the disclosure of information. In addition, as stated in Rules for the Prevention of Group Insider Trading, the managers of departments that have information about significant facts are responsible for managing this information. Disclosure must be timely, appropriate and fair. Information must be managed to prevent the provision of information only to some shareholders and investors.

(6) Other activities

The Company performs investigations and other activities in order to identify effective shareholders. The purpose is to know all shareholders, both registered and effective shareholders, who make investment decisions and stock voting decisions. Dialogue with these effective shareholders is one of the Company's priorities.

The Company supplies financial information to shareholders and other investors as well as the President & CEO' stance regarding management from medium and long-term perspectives (including specific measures regarding revisions to the business portfolio, the allocation of management resources, etc.), information about ESG (environmental, social and governance, and other non-financial information. More measures will be taken to further upgrade these disclosure activities.

Appointment of Directors and/or Staff to Support the Audit Committee	Appointed
--	-----------

Matters Related to the Independence of Such Directors and/or Staff from Executive Officers (Shikkoyaku)

The Company set up the Audit Committee Office with a full-time staff to support the Audit Committee, and, besides being the secretariat of the Audit Committee, the Audit Committee Office shall perform its duties in accordance with the instructions of the Audit Committee. Furthermore, this principle is to be clearly specified in Company rules and made common knowledge. To ensure the independence of the Audit Committee Office from Executive Officers and the effectiveness of instructions received from the Audit Committee, personnel matters regarding the Audit Committee Office including appointment, personnel changes and disciplinary action, shall be approved in advance by the Audit Committee.

Cooperation among Audit Committee, Accounting Auditors and Internal Audit Departments **Updated**

The Audit Committee holds meetings with the External Accounting Auditor many times each year. Committee members receive thorough explanations of the External Accounting Auditor's policy and plans for audits in addition to explanations and other information to be certain that the External Accounting Auditor is performing its duties properly. In addition, members of the Audit Committee state their views, including requests to place emphasis on certain audit items, and actively exchange other information. The aim is to

perform audits that are appropriate and strict. Committee members also receive explanations for the auditing system and internal controls of the accounting auditor's company to confirm various items. Receiving detailed reports from the External Accounting Auditor about the audit method and results is not the only task of the Audit Committee but also Committee members receive frequent audit implementation reports and monitor progress of the External Accounting Auditor's audit. The Audit Committee compares information from the External Accounting Auditor with information obtained by Committee members to reach decisions regarding the suitability of the External Accounting Auditor's audit.

As a company with three committees, the Company has an Audit Committee. Subsidiaries in Japan are companies with *Kansayaku*. The Company has a Corporate Audit Division to perform internal audits. Furthermore, while preserving its independence as an audit organization, the Audit Committee, Corporate Audit Division and *Kansayaku* of the subsidiaries cooperate with each other to make audits even more efficient and effective.

The Corporate Audit Division prepares internal audit reports, periodic audit activity reports and monitoring reports. These reports are submitted at the same time to the President & CEO and the Audit Committee.

Rules stipulate that the Audit Committee has the right to ask the Corporate Audit Division to perform special audits.

[Independent Directors]

Number of Independent Directors	5
---------------------------------	---

Matters relating to Independent Directors

All Outside Directors who are qualified to be Independent Directors are designated Independent Directors. In 2007, the Nominating Committee established "Independence Standards for Outside Directors". Regarding such standards, the Nominating Committee selects Outside Director candidates for whom none of the following items are applicable.

(1) Person affiliated with Konica Minolta

- Former employee of the Konica Minolta Group
- Having a family member (spouse, child, or any blood or marital relative within the second degree) that has served as a Director, Executive Officer, Auditor or senior management in the Konica Minolta Group during the past five years

(2) Person affiliated with a major supplier/client

- Currently serving as a Managing Director, Executive Officer, or employee of a major supplier/client company/group that receives 2% or more of its consolidated sales from the Konica Minolta Group or vice versa

(3) Specialized service provider (lawyer, accountant, consultant, etc.)

- Specialized service provider that received annual compensation of 5 million yen or more from the Konica Minolta Group for the past two years

(4) Other

- A shareholder holding 10% or more of the voting rights in the Company (Executive Director, Executive Officer, or employee in the case of a corporate body)
- A Director taking part in a Director exchange
- A Director, Executive Officer, *Kansayaku* or equivalent position-holder of a company that competes with the Konica Minolta Group, or a person holding 3% or more of the shares of a competing company
- Having some other significant conflict of interest with the Konica Minolta Group

The Company, under the rules of the Nominating Committee, in principle, limits the period in office of Outside Directors to four years (reappointment limit). This rule is based on the concern that the objectivity of these Directors may decline as the length of time in office increases.

Policy on Determining Remuneration Amounts
and Calculation Methods Updated

Established

Disclosure of Policy on Determining Remuneration Amounts and Calculation Methods

The Company, which has adopted the company-with-three-committees system, has established a Compensation Committee. Outside Directors account for the majority of members of the committee and the committee is chaired by an Outside Director to ensure transparency and to determine compensation in a fair and appropriate manner.

The Company's Directors' compensation system is intended to strengthen the motivation of Directors and Executive Officers to strive for the continuous medium-to-long-term improvement of the Group performance in line with management policies to meet shareholder expectations, and to contribute to the optimization of the Group value. The Company aims for a level of compensation that enables it to attract and retain talented people to take responsibility for the Company's development.

In keeping with these aims, the Compensation Committee has established a policy for determining the individual compensation entitlement of Directors and Executive Officers as set out below, and determines the amount, etc. of individual compensation entitlement of Directors and Executive Officers in line with this policy.

<Compensation Policy>

(1) Compensation system

- Compensation packages for Directors (excluding Directors who concurrently hold Executive Officer posts) exclude a short-term performance-based cash bonus because Directors have a supervisory role, and consist of a "base salary" component in the form of a base salary and "stock bonus." The "stock bonus" consists of the "medium-term stock bonus" (non-performance-linked) and "long-term stock bonus." Also, Outside Directors only receive "base salary," inclusive of bonus according to their roles.
- Compensation packages for Executive Officers consist of "base salary," "annual performance-based cash bonus," which reflects the performance, and "stock bonus." In addition, "stock bonus" consists of "medium-term stock bonus" (performance-linked) and "long-term stock bonus."

(2) The total amount of individual compensation entitlement and "base salary" are set at an appropriate level with each position and its value taken into account, based upon objective data, evaluation data and other data collected at regular intervals, etc.

(3) The amount of the "annual performance-based cash bonus" is determined based on the level of performance result for the fiscal year (consolidated operating income) and the degree of attainment of annual performance targets and according to progress of each Executive Officer's key operational measures. The amount based on the degree of attainment of annual performance targets is determined in the 0% to 200% range of the standard amount of compensation. The targets are major consolidated performance indicators (operating income, operating income margin, operating cash flows and KMCC-ROIC(*)) associated with results of operations. Executive officers' key operational measures include those related to non-financial indicators, such as ESG (environmental, social and governance).

* KMCC-ROIC is ROIC to calculate "annual performance-based cash bonus," defining invested capital as assets that can be separately managed and improved by each business segment.

(4) Details of the stock bonus plan are as follows.

- In the “medium-term stock bonus” plan (non-performance-linked) to Directors, the Company’s shares are distributed to Directors after the end of the medium-term business plan, according to their roles and years they are in office. The plan is aimed to enhance their motivation toward contribution to medium-term improvement of the shareholder value and promote holdings of the Company’s own shares.
 - In the “medium-term stock bonus” (performance-linked) to Executive Officers, the Company’s shares are distributed to Executive Officers after the end of the medium-term business plan in the 0% to 200% range. The plan is aimed to enhance their incentives toward attainment of the targets in the medium-term business plan and promote holdings of the Company’s shares. The medium-term targets are major consolidated performance indicators (operating income, operating cash flows and KMCC-ROIC) associated with the medium-term management policy.
 - In “long-term stock bonus” plan to Directors (Non-executive Inside Directors) and Executive Officers, the Company’s shares are distributed to them according to their positions, roles and years they were in office after their retirement from office. The plan is aimed to enhance their motivation toward contribution to the long-term improvement of the shareholder value.
 - The standard number of shares is set by the position of each Director or Executive Officer in the first year of the medium-term business plan.
 - Certain portions of shares are distributed in cash.
 - Shares of the Company obtained as stock bonus shall be held in principle for one (1) year after the date of retirement from the post of each Director or Executive Officer.
- (5) The standard for compensation to the President & CEO is a 50:25:25 mix of “base salary,” “annual performance-based cash bonus” and “stock bonus.” For the Executive Officers other than the President & CEO, the “base salary” ratio is set higher than that for the President & CEO.
- In addition, the ratio of “medium-term stock bonus” (performance-linked) and “long-term stock bonus” in “stock bonus” is 60:40.
- (6) Compensation for non-Japan residents may be handled in different ways from the treatment said above according to legal and other circumstances.
- (7) When the Board of Directors resolved a correction to financial statements after the announcement due to a material accounting error or fraud, the Compensation Committee considers corrections to performance-based bonuses and limit payment or request return of the bonuses when necessary.
- (8) The Company reviews levels, composition and others of compensation in a timely and proper manner in accordance with changes in the management environment.

Regarding the conventional retirement benefit system abolished in June 2005, the Compensation Committee has determined individual entitlements within reason based upon certain criteria established by the Company, and will pay such entitlement upon the retirement of each Director or Executive Officer in office prior to the abolition of this system.

<Indicators for performance-based bonuses, reasons for the selection of these indicators, and method for determining the amount of performance-based bonuses>

(1) Annual performance-based cash bonus

(a) Indicators and the reasons for the selection of these indicators

1) The indicator for the level of performance results portion is the amount of Group consolidated operating profit. It was judged that operating profit is the most appropriate indicator for determining the responsibility for performance that should be taken on by Executive Officers with the aim of realizing sustainable growth and enhanced corporate value by achieving higher levels of operating profit.

2) For corporate departments and core business departments, the indicators for the portion according to attainment of performance targets are the amount of operating profit, operating profit margin, operating cash flows, and KMCC-ROIC. These indicators attach strong significance to the Company's sustainable growth and the enhancement of the medium- to long-term corporate value. The amount of operating profit is selected to strengthen the earning power of the core business, operating profit margin to realize a shift to a highly profitable system, operating cash flows to allow timely and appropriate development of strategies and procure the underlying capital, and KMCC-ROIC to improve the efficiency of invested capital.

In addition, the respective indicator has been evenly weighted at 25%.

For a new business department, the indicators are individual targets set out by each business unit in light of the business characteristics and fiscal key measures.

3) For the portion according to personal appraisal, factors such as progress of each Executive Officer's key operational measures are used as indicators. Matters are evaluated from a different perspective from the level of performance results portion and the portion according to attainment of performance targets.

(b) Methods for determining the amount of compensation

1) The amount paid for the level of performance results portion is calculated by multiplying a value determined according to the amount of Group consolidated operating profit by a number of points set for each position. Said value is decided in accordance with a table formulated in advance.

2) For corporate departments and core business departments, the amount paid for the portion according to attainment of performance targets is calculated by multiplying the payment rate calculated from the annual performance target attainment rate (calculated based on the weighting of each indicator) by a set amount according to position. The respective business's consolidated performance is factored in the payment for Executive Officers responsible for the core business department, and the Group's consolidated performance is factored in the payment for those responsible for the corporate department.

In addition, the payment amount for Executive Officers responsible for the new business department is calculated by multiplying an attainment rate of individual targets of the respective business department by a set amount for each position.

The rate of the payment varies from 0% to 200%, depending on the attainment level of the target.

- 3) The amount paid for the portion according to personal appraisal is calculated by multiplying the total of the standard amounts determined for the level of performance results portion and portion according to attainment of performance targets by an appraisal value (value in the range of -30% to +30%) for each Executive Officer stipulated in a proposal drafted by the President & CEO.
- 4) The payment amounts in the three items listed above will be discussed and settled by the Compensation Committee.

(2) Medium-term stock bonus (performance-linked)

(a) Indicators and the reasons for the selection of these indicators

The amount of operating profit, operating cash flows, and ROIC are set to be the indicators (all of which are on the consolidated basis of the Group) with the aim of the sustainable growth and the enhancement of the medium- to long-term corporate value of the Company.

The amount of operating profit is selected to strengthen the earning power of the core business, operating cash flows to allow timely and appropriate development of strategies and procure the underlying capital, and ROIC to improve the efficiency of invested capital over the medium to long term.

In addition, these indicators have been weighted at 40%, 30% and 30%, respectively.

(b) Methods for determining the amount of compensation

- 1) The number of stock to be distributed is determined by multiplying the payment rate calculated from the target attainment rate in the period of the medium-term business plan, reflected with the weighting of the indicator, by the number of points set for the position accumulated over the same period, with one point equaling one share that will be transferred as compensation.

The rate of the payment varies from 0% to 200%, depending on the attainment level of the target.

- 2) Points set per position is calculated by dividing the amount of resources allocated per position by a reference stock price.
- 3) The reference stock price is the average price paid by the trustee entrusted by the Company, the trustor, when purchasing the number of shares of the Company required to pay the stock bonus on the stock market at the time of start of the period of the medium-term business plan or medium-term business strategy.
- 4) The number of shares transferred listed above will be discussed and settled by the Compensation Committee

[Supporting System for Outside Directors]

There is the Board of Directors Office that functions as a secretariat for the Board of Directors, Nominating Committee and Compensation Committee and has a similar function to that of the Audit Committee Office that is the secretariat for the Audit Committee. The members of the Board of Directors Office provide assistance for the Outside Directors to help enable the board and its three committees to function properly.

Members of this office also distribute the document in advance concerning agenda items to Outside Directors, and create proposals and plans for visits to Company facilities and accompany Outside Directors as needed as part of activities to provide information to these directors. The objectives are to enable Outside Directors to thoroughly discuss subjects at the Board of Directors meetings and to enable these meetings to take place with no difficulties.

Other Matters Updated

There is no senior advisor position at the Company because it was terminated in 2006.

Past presidents of the Company or the Company's predecessors (Konica Corporation and Minolta Co., Ltd.) can receive the title of Special Advisor or Honorary Advisor once an individual is no longer a Director as defined in the Companies Act. A summary of this position is as follows.

- A Special Advisor is an individual who performs external activities that are beneficial to the Company. This includes the activities of industry and economic associations that represent the Company, public service activities such as social activities and committee studies, and other types of activities. The guideline for compensation is about 30% of fixed compensation when the individual resigned as CEO. The term of office is up to age 75 or four years, whichever is shorter.
- An Honorary Advisor is given to a former president who wants to use this title for external activities and when the Company determines that these activities would be meaningful to the Company. There is no compensation. The term of office is one year and can be extended every year by mutual agreement.
- Special Advisors and Honorary Advisors have no rights involving decisions or other influences on management decisions and judgments.
- The President & CEO selects Special Advisors and Honorary Advisors and their status and submits reports to the Board of Directors.
- The Board of Directors establishes rules for this advisor system as part of the Company Rules.

As stated above, as of June 17, 2021, there are no Special Advisors who receive compensation and three Honorary Advisors who do not receive any compensation.

(Note) Date of retirement from position such as President is the day the former CEO was no longer a Director as defined in the Companies Act.

2. Matters on Functions of Business Execution, Auditing, Oversight, Nominating and Remuneration Decisions (Overview of Current Corporate Governance System) Updated

(1) Activities of the Board of Directors

1) Frequency of Meetings held

In fiscal 2020, 13 meetings were held.

2) Main matters for consideration

In fiscal 2020, in addition to confirming and overseeing the state of evaluation of our medium-term initiatives in each business area considering the effects of COVID-19, we discussed and deliberated the formulation of a new medium-term business strategy and medium-term business plan aimed at two transformations (transformation of the Office Business into Digital Workplace Business, and the development of core business to come after the Office Business).

We also implemented monitoring of the state of progress of our new businesses including our precision medicine business and Workplace Hub business.

3) Attendance of each director

At the Ordinary General Meeting of Shareholders held on June 30, 2020, one Director stepped down and one was newly appointed. However, in fiscal 2020, the attendance rate of Directors to Board meetings was 99%.

(2) Business execution

(a) Transfer of authority to Executive Officers by the Board of Directors

The Board of Directors delegates significant authority concerning decisions about business operations to the President & CEO. The Board of Directors concentrates on fundamental items involving business operations, such as “Fundamental Policies for Management” as well as on the oversight of how business operations are managed.

(b) Framework for business operations

The Board of Directors appoints Executive Officers and selects from these Executive Officers the President & CEO and senior Executive Officers. In addition, the Board of Directors assigns specific duties to the Executive Officers and determines the flow of orders and instructions. The President & CEO and the other Executive Officers make decisions and conduct business operations for the business operations they have been given responsibility by a resolution of the Board of Directors.

(c) Management Consultation Committee

The Management Consultation Committee provides assistance to the President & CEO for making decisions and discusses important items concerning management of the Group.

(3) Functions and roles of Outside Directors involving corporate governance

Upgrading an oversight function from the perspective of ordinary shareholders is one of the priorities of the Company. The Nominating Committee selects highly independent Outside Director candidates based on “Independence Standards for Outside Directors” established by this committee and the standards for Independence in Rule 436-2 of the Securities Listing Regulations of Tokyo Stock Exchange, Inc. The primary role of Outside Directors is to use the perspective of ordinary shareholders, which is independent from the perspective of senior management team and certain stakeholders (large shareholders, suppliers and customers, related companies, and others). In particular, the Outside Directors are responsible for supervising management in order to protect ordinary shareholders and ensure the common interests of shareholders when there is a conflict of interest with senior management team.

At meetings of the Board of Directors, Outside Directors make statements from the perspective of ordinary shareholders concerning proposals from Executive Officers and reports about studies involving significant issues. Furthermore, Outside Directors use their many years of corporate management experience to give appropriate advice. All of these activities contribute to upgrading management strategies and improving the efficiency of management. In addition, an Outside Director chairs the Nominating, Audit and Compensation Committees in order to heighten transparency.

The Company has contractual agreements with the Outside Directors that limit the liability of these Directors. These agreements are for the purposes of attracting highly qualified individuals as Outside Directors and enabling these Directors to perform their roles as expected.

(4) Nominations

(c) Audit Committee

1) Functions and roles

Please see II. 1. [Auditing Structure].

2) Frequency of Meetings held

13 meetings of the Audit Committee were held in fiscal 2020.

3) Roles and activities of the Internal Audit Committee

The Company selects an Internal Director who is not concurrently an Executive Officer to serve as a full-time Audit Committee Member responsible for investigations. This individual uses regular auditing activities to collect information and submits reports to the Audit Committee, where a majority of members are Outside Audit Committee Members, in order to improve the quantity and quality of audits. Improving the effectiveness of the Audit Committee is the goal.

Internal members of the Audit Committee mainly perform the following activities.

- Attending important meetings about business operations, audit the suitability of the Board of Directors process for delegating authority to Executive Officers, audit the operation of the internal control system, and other activities
- Visiting business sites, including subsidiaries, in Japan and overseas, receive information from business site and subsidiary managers to determine the status of their business operations
- Receiving monitoring reports at a suitable frequency from the Corporate Audit Division, which performs internal audits, and *Kansayaku* of the subsidiaries; use exchanges of opinions about matters requiring attention and other items for working together to improve audit functions
- Holding meetings at a suitable frequency with the Accounting Auditor to exchange information about important matters involving accounting audits and other activities for performing appropriate and strict accounting audits

4) Attendance of each member of the Committee

In fiscal 2020, the Committee reviewed the systems and levels of compensation and moved forward with discussions to review the group of benchmark companies aimed at business transformation and portfolio transformation. The Committee also deliberated and decided special measures for the procedures to calculate performance-linked remuneration.

4) Attendance of each member of the Committee

In fiscal 2020, all members of the Compensation Committee attended all Committee meetings, resulting in an attendance rate of 100%.

3. Reasons for Adoption of Current Corporate Governance System **Updated**

The Company is dedicated to corporate governance that can contribute to sustained growth and medium to long-term growth in corporate value. This requires a management style that accepts a suitable amount of risk along with the establishment of a highly effective oversight function for conducting business operations. Consequently, a corporate governance framework has been assembled from the standpoint of supervision. As the structure prescribed by the Companies Act, the Company selected in 2003 the “company with committees” system (currently a “company with three committees”). Furthermore, to create a governance system that does not rely on the skills of any particular individual, the Company has constantly aimed for corporate governance with a distinctive Konica Minolta style.

The Company’s basic approach with regard to its governance system is as follows;

- Ensuring of business supervisory functions by separating the supervisory and execution functions in order to increase the corporate value.
- Election of an Independent Outside Director who can provide supervision from an ordinary shareholder perspective.
- Improvement of the transparency, integrity and efficiency of management through the above- mentioned points.

3. Measures to Ensure Due Respect for Stakeholders **Updated**

	Supplementary Explanations
Stipulation of Internal Rules for Respecting the Position of Stakeholders	<p>Under the slogan of management visions; to be "a global company that is vital to society, bringing vision to reality" and "a robust and innovative company, continually evolving and contributing to the sustainable growth of the society and individuals," with the aim of implementing the corporate philosophy of "Creation of New Value," the Company practices sustainability management in order to balance the two wheels of the resolution of social issues and corporate growth. There is a Konica Minolta Group Charter of Corporate Behavior setting forth the actions that a corporation ought to demonstrate, in which respect for stakeholders is extensively stipulated. A worldwide Konica Minolta Group Charter of Corporate Behavior Guidance was also established with each provision providing for desirable actions people should emulate. The group's Charter of Corporate Behavior has been translated into ten</p>

	<p>languages and there are activities to make employees of the group worldwide aware of this code. We established 6 Values as a set of beliefs for employees working in the Group, which articulates the specific behavior, key qualities and judgement criteria to fall back on vis-à-vis stakeholders and society in our interactions through the course of our business. The 6 Values clearly stipulate to become a provider of the customer's genuine needs with an emphasis on "Customer-centric."</p>
<p>Implementation of Environmental Activities, CSR Activities etc.</p>	<p>[Our initiatives for sustainability]</p> <p>As we believe that sustainability initiatives are the heart of our management strategy, we also believe that the Company's reason for existence is to balance "the human quest for purpose in life" and "global sustainability." As a global enterprise, the Company is determined to continue to grow and play a role in creating a sustainable society. To accomplish these goals, we are focused on the international social issues addressed in the Sustainable Development Goals (SDGs) of the United Nations as business opportunities. We are working on innovative ideas to provide new value for the global environment and human society, believing that such efforts will pave the way for the realization of the sustainable growth and business creation for the Konica Minolta Group.</p> <p>Furthermore, to realize our management vision as we head toward 2030, we have envisioned the social issues ten years in the future, designated Five Materiality (notes) that clarify the social value that the Company should provide to resolve these issues, and begun activities. These Five Materiality show important themes in which the Company can produce particularly significant social value by concentrating the intangible assets owned by the Konica Minolta Group.</p> <p>(Notes: (1) Improvement of satisfaction in work and corporate revitalization, (2) Realization of healthy and high quality of life, (3) Ensuring safety and security in society, (4) Countermeasures to climate change, (5) Effective use of finite resources)</p> <p>[Initiatives for solution to global environmental issues]</p> <p>We acknowledge that the global environmental issues are pervasive issues for all human beings, and also the issues affecting the entity's competitiveness. Among these, concerning the burning issue of climate change, we aim to become carbon negative by 2030. We will not only reduce CO2 emissions in the lifecycles of our own products, but also, by supporting the resolution of environmental issues by our customers and suppliers, reduce CO2 emissions by more than the amount produced by our</p>

	<p>own product lifecycles. As deliverables to customers change from products to services, we aim to reduce not only CO2 emissions associated with products, but also CO2 emissions added by services to connect to business growth.</p> <p>To accomplish these goals, with an eye on the entire life cycle of the product from development to procurement, production, distribution, sales and service, our ecosystem involving suppliers and customers aims to contribute to reducing the environmental burden.</p> <p>In fiscal 2020, we established the “Environmental Digital Platform” to advance our ecosystem further. By sharing and accumulating the environmental knowledge possessed by the Company and each participating company, the goal is to co-create new value to enhance the efficiency of environmental management and dramatically expand the effects of our ecosystem on solving the environmental burden. The Environmental Digital Platform began with 15 participating companies, which grew to 39 by the end of March 2021. We plan to continue to expand the circle of co-creation.</p> <p>The Company has also added its name to and is participating in international initiatives tackling environmental issues. In February 2017, the Company’s CO2 reduction targets were approved by the Science Based Targets (SBT) initiative. In July 2018, we expressed our support for the Final Report: Recommendations of the Task Force on Climate-related Financial Disclosures (TCFD). Furthermore, in January 2019, we joined RE100, a global leadership initiative aiming to realize 100% renewable power for member’s business operations, and we are aiming to source the electricity used in the Company’s business operations from 100% renewable power by 2050.</p> <p>[Initiatives for solutions to social issues]</p> <p>Amid the revelation of today’s many social issues, the Company supports the reconstruction of the workflows among workers at the work locations including office, plant, hospital and nursing home in facing issues such as the advent of an ageing society and the shortage of workers, and calls for flexible working-styles. In tandem with such support, the effort to solve today’s issues allowed by the enhancement of the productivity and quality of operations will propel to address the social issues awaiting ahead of us consequently. Following specific initiatives are underway by utilizing the Company’s strength that lies in imaging- and edge IoT technologies.</p> <ul style="list-style-type: none"> ● Propose new work-style not restricted by a work location through digital transformation

	<ul style="list-style-type: none"> ● Provide a quality life through early diagnosis of diseases and the expansion of the number of acceptance of elderlies requiring nursing care through advanced gene and kinetic testing technology, and nursing care solutions ● Contribute to a safe and secure society through imaging IoT ● Contribute to climate change issues by utilizing DX such as on-demand production, imaging-IoT, and edge IoT ● Contribute to work styles that make effective use of resources through connected workplaces, on-demand production, and imaging-IoT <p>[Initiatives for a responsible supply chain]</p> <p>The Company performs CSR activities across its entire supply chain based on the recognition of the importance of creating a sustainable society that respects human rights as a fundamental requirement to support these actions. For CSR procurement, the Company has established a Procurement Policy and a Supplier Code of Conduct. We work as a unified team with suppliers with regard to labor (human rights), ethics, safety and hygiene, the environment, and other aspects of operations. In addition, we have a Conflict Mineral Resource Policy that includes investigations of suppliers at the beginning of supply chains in order to prevent violations of human rights caused by conflicts.</p>
Development of Policies on Information Provision to Stakeholders	<p>In the Konica Minolta Group Charter of Corporate Behavior, the Company declares “the Company communicates with society at large and discloses corporate information in fairly and adequately”. A Corporate Information Disclosure Committee is established to ensure that important corporate information of the Group is disclosed in a timely, appropriate and impartial manner.</p>
Other	<p>[Promoting Health Management]</p> <p>At Konica Minolta, the health of employees is the foundation for all activities. Based on the Konica Minolta Group Health Declaration, we foster a corporate culture that places priority on good health. To utilize corporate resources and the resources of the Company’s health insurance association fully, we have a unified management structure (collaborative health) for planning and action. Through this structure, we establish and implement various initiatives to preserve and improve the health of our workforce. We categorize people with health risks, whether physical or mental, and establish reduction and other goals for them. Then we proactively take actions for reaching those goals.</p>

	<p>For physical well-being, all group companies in Japan participate in a program to prevent health problems from becoming serious. Employees undergo periodic medical examinations. Individuals at risk receive individual guidance from industrial health professionals and are urged to see a physician for a thorough examination. For mental well-being, all employees undergo a stress check twice every year. Results are used for individuals to take better care of themselves. In high-stress workplaces, we collaborate to pursue improvement activities after sharing the root causes with the organizational head and the Corporate Human Resources Division. We have established multiple health indicators for the visualization of how healthy a person is. These indicators are used to make people aware of the need to make improvements and for various support programs that enable people to lead a healthier life.</p> <p>Starting in fiscal 2020, under the new medium-term health plan, we expanded the scope of our initiatives from “risk management” to “improved productivity and energy,” and from “the individual” to “the organization,” focusing on activities aimed at improving the productivity and performance of our workers.</p> <p>In recognition of these initiatives, the Company was selected as a 2021 Health and Productivity Management Stock Selection under a joint program of the Ministry of Economy, Trade and Industry and the Tokyo Stock Exchange. The 2021 selection was the sixth time for the Company to receive and the four-year selection winning streak following 2015, 2016, 2018, 2019 and 2020 selections.</p> <p>[Promoting Diversity]</p> <p>The Konica Minolta Group has sales and service systems in 150 countries. The United States, Europe, China, other Asian countries and other regions other than Japan account for approximately 80% of sales. Fully utilizing the skills of a diverse workforce will be vital to our ability to continue to create new value. Our workforce is also the source of our ability to compete and grow. We have diversity activities at all our business sites worldwide that focus on diversity in terms of the characteristics of employees (gender, nationality, sexual orientation, disabilities and other traits) as well as diversity in the ways in which people do their jobs.</p> <p>The U.S. subsidiaries of Konica Minolta have a program called Step Forward that provides support for the career advancement of women. At subsidiaries in Europe, there is a Women’s Network and a Move Forward program for the rotation of women among group companies in Europe. A</p>

	<p>government organization, WGEA (Workplace Gender Equality Agency), recognized proactive gender equality initiatives undertaken by the Australian subsidiaries and awarded the “Employer of Choice” for five consecutive years.</p> <p>Furthermore, on International Women’s Day on March 8, 2021, we connected online with Konica Minolta Global and held a panel discussion with four female leaders in the U.S., Europe, and Asia active at Konica Minolta and the President. Around 650 Konica Minolta Group employees from around the world participated.</p> <p>In Japan, the Company established an action plan based on the Act on the Promotion of Women’s Participation and Advancement in the Workplace and is working to achieve goals including enhancing individual development of female managerial candidates. As of April 2021, the proportion of female managers was 7.2%, as we steadily increased the ratio toward our goal of 8% by the end of fiscal 2021.</p> <p>As of June 2021, there were two females and three foreign nationals in Executive Officers and Corporate Vice Presidents. We are also working to promote diversity in the management hierarchy, including the active participation of women.</p> <p>In April 2017, the Company established the Diversity Promotion Office (renamed as the Turn Diversity into a Strength! Promotion Office in April 2019), a unit supervised directly by the President & CEO. This office conducts activities for giving people an understanding of the true meaning of diversity and creating a corporate culture of promoting diversity. One activity was a seminar by an external diversity expert for managers. There was also a workshop for division managers and higher ranking executives along with a workshop for female employees and their supervisors. Actions include support for female employee career planning and other measures for broadening diversity initiatives. Along with encouraging the active participation of women, we have held workshops aimed at improving on-the-job psychological safety and events, etc., which our employees spearheaded to organize to promote a deeper understanding of LGBT and different ethnic groups and cultures, aimed at fostering a tradition that embraces broader diversity turning into power. In November 2016, the Company received L-Boshi Certification from the Ministry of Health, Labour and Welfare, the highest ranking for companies with a strong commitment to creating an environment that utilizes the skills of women. This ranking recognizes our activities in prior years as well as the establishment of pleasant and productive</p>

IV. Matters Related to the Internal Control System

1. Basic Views on Internal Control System and the Progress of System Development Updated

The Board of Directors of the Company adopted resolutions on the matters prescribed by the applicable Ordinance of the Ministry of Justice as those necessary for the execution of the duties of the Audit Committee (Article 416, Paragraph 1, Item 1 (b) of the Companies Act), and on the establishment of systems necessary to ensure that the execution of duties by Executive Officers complies with laws and regulations and the Articles of Incorporation, and other systems prescribed by the applicable Ordinance of the Ministry of Justice as systems necessary to ensure the properness of operations of group companies (Article 416, Paragraph 1, Item 1 (e) of the Companies Act). A summary of the resolutions is as follows.

(1) Requirements for the execution of duties by the Audit Committee

- (a) The Company set up the Audit Committee Office with a full-time staff to support the Audit Committee, and, besides being the secretariat of the Audit Committee, the Audit Committee Office shall perform its duties in accordance with the instructions of the Audit Committee. Furthermore, this principle is to be clearly specified in Company rules and made common knowledge.
- (b) To ensure the independence of the above Audit Committee Office from Executive Officers and Corporate Vice Presidents and the effectiveness of instructions received from the Audit Committee, personnel matters regarding the Audit Committee Office including appointment, personnel changes and disciplinary action, shall be approved in advance by the Audit Committee.
- (c) The Company's Executive Officers or Corporate Vice Presidents in charge of the Group's internal control, including the Corporate Audit Division, Risk Management Committee and the Compliance Committee, shall report on the status of operation to the Audit Committee on a regular basis and without delay if an urgent situation that must be reported has arisen or if requested to make a report by the Audit Committee. The subsidiaries' internal audit division, risk management division, compliance division and auditors shall report on the status of operation to the Audit Committee without delay if requested to make a report by the Company's Audit Committee.
- (d) The Company will secure and manage a budget that is necessary and appropriate for paying expenses arising from the execution of work duties by the Audit Committee members.
- (e) The Company will provide opportunity for Audit Committee members elected by the Audit Committee to attend Management Consultation Committee and other important meetings. The Executive Officers or Corporate Vice Presidents in charge of internal control, including the Corporate Audit Division, Risk Management Committee and the Compliance Committee shall report without delay if requested to make investigations, reports, etc. by the Audit Committee members.

- (2) Systems for ensuring compliance of execution of duties by Executive Officers with laws, regulations and the Articles of Incorporation and other required systems of the Group for ensuring the properness of business operations
- (a) Each Executive Officer and Corporate Vice President shall manage the minutes of Management Consultation Committee and other important meetings, documents requesting formal approval and other information concerning the performance of their duties to ensure that documents are preserved in an appropriate manner and made available for inspection in accordance with the provisions of the Executive Officer document management rules and internal rules concerning the management of other documents.
- (b) The Company set up the Risk Management Committee which is in charge of managing the various risks that arise in connection with the Group's business activities, and the Executive Officer or Corporate Vice President appointed by the Board of Directors shall be responsible for the development of risk management systems including the following, in accordance with the Risk Management Committee Regulations.
- With respect to management of the business risks and operational risks, each Executive Officer and Corporate Vice President shall be responsible in accordance with respective assigned area. The Risk Management Committee shall provide support to each Executive Officer and Corporate Vice President. Further, the Risk Management Committee shall periodically conduct selection, assessment and review of risks material to Group management, develop measures, and confirm management status.
 - The Executive Officer or Corporate Vice President in charge of risk management appointed by the Board of Directors shall be responsible for establishing the contingency plans and countermeasures to minimize the damages by a crisis which is supposed to adversely affect the corporate value.
 - Provide support to the development and strengthening of risk management systems at each group company.
- (c) The Company set up a Corporate Audit Division which is in charge of the internal auditing of the Group to evaluate and improve the status of execution of business operations in all business activities from the viewpoint of legality and rationality, and which shall be responsible for establishing and operating internal auditing systems in accordance with the Internal Auditing Regulations.
- (d) The Company shall be responsible for establishing and operating a system of internal control over financial reporting in the Group and a system for evaluating the efficacy of their operation.
- (e) The Company set up the Compliance Committee which is in charge of establishing and operating the Group's compliance systems, and the Executive Officer or Corporate Vice President appointed by the Board of Directors shall be responsible for establishing and operating the compliance systems including the following, in accordance with the Compliance Committee Regulations.
- Defining compliance in the Group as the observance of laws and regulations applicable to corporate activities, corporate ethics and internal regulations and policies, and making this known to every individual working for the Group.

- Establishing the Konica Minolta Group Charter of Corporate Behavior, familiarizing this through the Group, and enacting compliance conduct guidelines, etc. based on the philosophy of the Charter of Corporate Behavior.
- Establishing and operating systems to promote compliance at each group company. Specifically, preventing fraud at each group company by establishing the function to supervise each company's president.
- Establishing and operating a whistle blowing system that allows employees to report any compliance violations that are discovered or anticipated. Make this system clear common knowledge in Company rules to halt unfair treatment through the reporting of infractions. Specifically, preventing the concealment of fraud by taking measures like the Company's direct accepting whistle blowing reports from each group company. Furthermore, the department in charge of the whistle blowing system will regularly inform the Audit Committee of report details and status.

(f) The Company shall be responsible for establishing a system to ensure the effectiveness of each group company's internal control, promote the awareness and understanding of internal control of the president at each group company, and support the establishment and operation of an internal control system that meets each company's characteristics. The Company shall establish a dedicated organization, which shall help each group company to strengthen its internal controls.

(g) The Company established the Corporate Organization Basic Regulations, and shall develop the corporate governance mechanisms of the Company and the Group, including the foregoing systems. The Company shall also work to establish and operate a system for ensuring the appropriateness of business operation through the Management Consultation Committee and other meeting bodies, authority regulations and other internal regulations, and shall endeavor to ensure the legality, rationality and efficiency of business execution by reviewing as necessary systems for management and administration across all the business activities of the Group. Furthermore, based on internal rules, etc. such as Authorization Regulations, the Company will make subsidiaries regularly report and seek preapproval on matters concerning the execution of important work duties, accounting, financial execution, human resources and other important information pertaining to such subsidiaries through Management Consultation Committee and other meetings.

The Company has established the frameworks described in the preceding sections (1) and (2) and, based on the associated policies, is performing the following activities.

Executive Officers and employees at the Corporate Audit Division, Risk Management Committee, Compliance Committee and other units responsible for the Group's internal controls submit reports every month in writing or at periodic meetings to the Audit Committee concerning business operations. Furthermore, explanations are given as needed concerning important subjects and issues involving internal controls.

Members of the Audit Committee, who is responsible for performing examinations, attended all meetings of the Management Consultation Committee during the fiscal year as well as operations meetings of business units and other important meetings. Audit Committee members used these activities to confirm decision-making processes and how Executive Officers and employees are doing their jobs.

<Risk management>

The Risk Management Committee meets twice each year and at other times as needed. The committee identifies risks associated with business operations and determines measures to deal with these risks. In addition, committee members confirm that the risk management system is functioning effectively and evaluate this system. In fiscal 2020, the Risk Management Committee held two meetings. Continuing from fiscal 2018, the committee regularly monitored new laws and regulations mostly stemming from the US-China trade frictions. The Committee has systemically organized and shared information of the impact to risk management from COVID-19 infections which has increased its impact since the end of fiscal 2019. Additionally, as represented by the fact that the Financial Services Agency selected the descriptions of business risks in the Company's Securities Report as "Positive Examples of Descriptive Information Disclosure," the Company is working actively on information disclosure.

Furthremore, the Company has reporting rules for the purpose of responding to a crisis in a rapid and suitable manner. Crisis reporting rules are well known to Executive Officers, executives of subsidiaries and others. Based on these rules, the Executive Officer in charge of crisis management performs the management of all information involving a natural disaster, accident or other crisis that has occurred anywhere in the world. In fiscal 2020, the emergency internal system to handle COVID-19 infection, under the oversight of the Representative Executive Officer as chief executive and chaired by the Executive Officer in charge of crisis management, took actions inside and outside Japan.

<Initiatives to reduce quality risks and prevent fraud concerning quality>

The Company has established the Quality Headquarters as a company-wide organization for the maintenance of product quality, prevention of market outflow of defective products, and strengthening of governance in connection with quality. During fiscal 2020, the Company continued to thoroughly comply with the "Guideline for evaluation of safety," "Guideline for product security," "Guideline for prevention of quality-related fraud," and others and made efforts for securing the quality of marketed products, strengthening security, and preventing quality-related fraud.

<Internal audits>

The Corporate Audit Division is responsible for internal audits for the entire Group. Overseen directly by the Representative Executive Officer, this division performs internal audits of the Company and its subsidiaries. Audits use the risk approach for efficiency from the standpoint of the reliability of financial reports, the efficiency and effectiveness of business operations, and compliance with laws and regulations. There are also follow-up audits to confirm that actions have been taken concerning items requiring improvements that were identified during audits. Major subsidiaries also have their own internal audit departments. These departments strengthen the internal audit function of the entire Group while working with the Konica Minolta Corporate Audit Division. In fiscal 2020, the Company worked to perform follow-up audits led by overseas branch offices of the Corporate Audit Division (at

U.S.A., Germany and Singapore) and regular monitoring activities with the aim of establishing the Group's audit system supported by regional autonomy to enable early actions taken for issues.

<Internal control for financial reporting>

To prevent fraudulent accounting activities, the Company prepares an internal controls report that is based on internal evaluations that cover the entire Group of 143 consolidated companies inside and outside Japan. This report is prepared in accordance with the Financial Instruments and Exchange Act for the purpose of ensuring the reliability of financial reports. After an audit by the Accounting Auditor, the report is submitted with the Securities Report. In fiscal 2020, the Company introduced its internal controls assessment at newly established or acquired five companies.

<Compliance>

The Executive Officer in charge of compliance ("the Compliance Officer"), who is appointed by the Board of Directors under the oversight of the Representative Executive Officer, determines important issues involving Group compliance activities and oversees compliance activities. The Group Compliance Committee, which consists of Executive Officers for a variety of business and corporate functions, serves as an advisory body to the Compliance Officer. The Committee held one meeting in fiscal 2020. There are regional compliance coordinators for Europe, North America, China and Southeast Asia, who are appointed by the Compliance Officer. This framework allows those coordinators, together with the subsidiary presidents, to perform compliance activities that match the characteristics and needs of each overseas region.

For the purpose of enhancing the awareness of compliance, the Company obtained declarations of placing a top priority on compliance from all officers and employees at the Company and subsidiaries inside and outside Japan and made efforts once again to make the whistle blowing system well known within the Group.

<Whistleblowing system>

The Company has a whistle blowing system for compliance and is always seeking ways to improve this system. In Japan, officers and employees of the Group can use a telephone call, e-mail, letter or other method to contact general manager of the Corporate Legal Division or an external attorney about a compliance problem or for a consultation. Reported claim is considered for necessity of investigation in fair and sincere manner and the reporter is informed of the actions to be taken. The information obtained from the whistleblowing are shared only among the persons involved in the investigation so to ensure that there will be no negative consequences for the individual who submitted the whistleblowing report. The Compliance Officer submits reports to the Audit Committee about these whistle blowings on a regular basis. The Group has established contacts for notification and consultation with the full regional coverage in North America, Europe, China and Southeast Asia. In fiscal 2020, the Company renewed its registration obtained in fiscal 2019 as one of the registered businesses for declaration of conformity for the whistleblowing compliance management system certification under the jurisdiction of Japanese Consumer Affairs Agency due to the establishment and operation of the Company's whistle blowing system being recognized as appropriate. Since last November, contacts have been extended to the external procurement sources inside and outside Japan for purpose of

further enhancing the whistle blowing system. There were 14 notifications in Japan and 44 overseas, but there was no issue falling under a serious violation of laws and regulations.

<Administration of group companies>

The Company has established an organization dedicated to supporting internal controls at its subsidiaries in Japan and overseas. The organization supports the preparation and improvement of the internal controls system at each subsidiary in cooperation with related departments. In fiscal 2020, it edited and published a handbook for each subsidiary to understand and practice internal control. It also continued initiative for each subsidiary to diagnose the situation and improve it on its own, confirming that the improvement is smoothly in progress.

2. Basic Views on Eliminating Anti-Social Forces and Progress of System Development

(1) Basic views

The Group's "Konica Minolta Group Charter of Corporate Behavior" is based on the spirit of "Konica Minolta Code of Conduct," the Group's highest Code on corporate. The Konica Minolta Corporate Compliance Behavior stipulates that the Company shall not deal with anti-social forces and shall take a resolute stance against all illegal demands.

(2) Progress of System Development

The Company is delegated the responsibility for implementation to its Corporate Legal Division. In addition to familiarizing all employees regarding the "Konica Minolta Group Charter of Corporate Behavior" against anti-social forces through the Compliance Manual, a system of cooperation is established with concerned company divisions and external expert organizations.

V. Other

1. Adoption of Anti-Takeover Measures

Adoption of Anti-Takeover Measures	Not Adopted
------------------------------------	-------------

2. Other Matters Concerning to Corporate Governance System **Updated**

(1) Resolution requirements concerning appointment of Directors

As stipulated in the Articles of Incorporation, resolutions for the appointment of Directors shall be adopted by the majority of the voting rights of those shareholders who attend the General Shareholder Meeting, where shareholders with voting rights having one-third or more of the total voting rights of shareholders shall attend. Resolutions for the appointment of directors shall not be based on cumulative votes.

(2) Matters regarding General Meeting of Shareholders and resolution of the Board of Directors

As stipulated by Article 37 of the Company's Articles of Incorporation, the payment of dividends from retained earnings, etc., can be set by resolution of the Board of Directors and not by resolution of the

General Shareholder Meeting provided that the report by the Accounting Auditor contains an unqualified opinion and that the Audit Committee's Report does not contain any opinions recognizing that the method or results of the audit by the Accounting Auditor were in some way inappropriate.

The reasons for the stipulation in the Articles of Incorporation described above are as follows.

- (a) In regard to what kind of policy for paying dividends from retained earnings would be preferable for each shareholder, there is a need to maximize profit for shareholders based on comprehensive consideration of tax systems, the stable payment of dividends, consolidated performance, and funding requirements to promote strategic investments in growth fields, and we think it is appropriate to entrust this kind of judgement call to the Board of Directors. Additionally, a policy is in place for resolutions on the payment of dividends from retained earnings, etc., by the Board of Directors.
- (b) The term of office for the Company's Directors who are entrusted with the judgement call outlined in (a) above is one year and as the Company is a "company with three committees," a framework is in place in which an Audit Committee comprising a majority of Outside Directors oversees the execution of duties by Directors (Board of Directors). Therefore, we think the risk of the Board of Directors abusing its authority is negligible.
- (c) Also, the reason the Board of Directors is set as the sole decision-making organizations on payment of dividends, etc. is because policy for paying dividends from retained earnings has a significant effect on profit for shareholders, so we think it would be inappropriate for this to be a purpose of the General Shareholder Meeting to be settled through the exercise of the shareholders' right to make proposals. Additionally, the Company's Articles of Incorporation stipulate that the Company shall decide on the payment of dividends and other matters provided in items of Article 459, Paragraph 1 of the Companies Act by resolution of the Board of Directors, and not by resolution of the General Shareholder Meeting and, in the same vein, may purchase its shares from the market, etc. provided in Article 165, Paragraph 2 of the Companies Act by a resolution of the Board of Directors.

(3) Requirements for special resolution

Article 17 Paragraph 2 of the Company's Articles of Incorporation stipulates that a special resolution of the General Shareholder Meeting can be adopted by two-thirds or more of the voting rights of those shareholders who attend the General Shareholder Meeting, where shareholders with voting rights having one-third or more of the total voting rights of shareholders attend.

The reason for the stipulation in the Articles of Incorporation described above is as follows.

A special resolution comprises a proposal that is of great importance to shareholders and the Company and if a situation were to occur in which there is an absence of a quorum, a proposal would become unable to be enacted even before a resolution can be approved or rejected. Therefore, the Company has reduced said quorum to the level of one-third, which is permissible under the Companies Act, in order to reflect the opinions of shareholders with voting rights as much as possible in voting on proposals.

(4) Exemptions of Directors and Executive Officers from their Liabilities

The Company's Articles of Incorporation stipulate that the Company may, pursuant to the provisions of Article 426, Paragraph 1 of the Companies Act, and by resolution of the Board of Directors, exempt the Directors (including former Directors) and Executive Officers (including former Executive Officers) from their liabilities for payment of damages with respect to the acts mentioned in Article 423, Paragraph 1 of the Companies Act to the extent permitted by laws and regulations in order to enable Directors and Executive Officer to fully play their expected roles.

(5) Outline of the timely disclosure framework

The Company has established Information Disclosure Controls and Procedures to ensure that corporate information is made public with speed, accuracy and fairness in accordance with laws and regulations.

The Corporate Information Disclosure Committee, which is overseen directly by the President & CEO, is responsible for disclosure activities. This committee performs the centralized oversight of corporate information disclosure based on the Information Disclosure Controls and Procedures and assists the President & CEO.

The chairperson of the Corporate Information Disclosure Committee, who is named by the President & CEO, names members of the committee from among Executive Officers for corporate strategies, risk management, CSR, legal affairs, general affairs, compliance and other activities. To serve as the secretariat for this committee, there is a secretariat consisting of managers from many departments and there is a secretariat support unit consisting of people with expertise concerning laws and regulations and compliance.

Corporate Governance Systems (including Internal Control System)
